

# Understanding and operating the Somfy app

**1** Select the blind you wish to operate from the list at the bottom of the Home screen.

**Tip:** If you're unable to see the blind you want to control, swipe left or right to reveal more blinds.

**2** You will see the blinds operation screen. Select the appropriate operation detailed below.

**3** Once you have selected an operation you will be taken back to the Home screen and your blind will operate.

**Tip:** You will see a stop button at the bottom of the screen. Pressing this will stop the blind moving.

**Note:** The stop button will be displayed for 30 seconds after a blind has been operated. Your blind may reach its limits before this time.
